Blank fields indicate that National Outcomes Survey data is not available.

\*The total number of members (ages 9 and up) that completed a valid National Outcomes Survey.

\*\*The aggregated responses for Boys and Girl Clubs nationally that participated in the 2016 National Outcomes Survey.

\*\*\* A research-based indicator developed by BGCA using: skipping school, grades on schoolwork, expectations of academic success, and grade retention.

\*\*\*\* Risk behavior data from Club high school members is compared to the national population of high school students who took the Centers for Disease Control and Prevention Youth Risk Behavior Survey (YRBS).

**Source: National Outcomes Survey.** If your organization is interested in better understanding how well your survey results represent your membership, contact [measurement@bgca.org](mailto:measurement@bgca.org) to schedule a consultation.
